***Remarks***

Claims 10-12, 15, 18, 23, and 24 are pending.

***Allowable Subject Matter***

1. Claims 10-12, 15, 18, 23, and 24 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior art, Shinji (Japanese Patent Application Publication 63-223850), Shinobu (Japanese Patent Application Publication 64-025354), Ashe (U.S. Patent 6,282,651), and Eng (U.S. Patent 6,365,833), fails to disclose that the encryption algorithm is changed at the time of separation of the region from the board. The mere use of multiple encryption algorithms within the system would not be allowable over the prior art, but the fact that the encryption algorithm is changed, in this particular apparatus, at the time the separable portion of the board is separated from the rest of the board, makes the claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
